Index California and Western Medicine

VOL. XII, 1924

A

ABBOTT, GEORGE KNAPP — The adult equivalent of the Froelich syndrome, 20.

ABDOMINAL conditions, errors in diagnosis of (Walter Wessels), 262.

ADENOMATA of thyroid gland (Edwin H. Schneider), 22.

ALDERSON, H. E. and COE, H. C.—Erythema induratum, 1.

ALKALIES, the role of in treatment (Anstruther Davidson), 150.

ANEMIA, ADDISON'S, neurological features of (William Cole), 501.

ANESTHESIA, history and progress in California (R. F. Hastreiter), 329.

ANESTHESIA, the effects of posture on relaxation (Caroline B. Palmer), 24.

ANTRUM of Highmore, surgery of (C. F. Welty), 624.

APPENDICITIS, acute, undescended testicle complicating (Maxmillian L. Herzig), 371.

APPENDICITIS, perforative—appendicectomy versus drainage (S. M. Sproat), 141.

ARTHRITIS, chronic, the second great type of in its relation to industrial accident cases (Leonard W. Ely), 260.

AURICULAR fibrillation, some clinical aspects of (A. W. Hewlett), 480.

B

BANDAGING, remarks on (Lloyd A. Clary), 491.

BENNETT, C. B.—A case of congenital synotosis of radius and ulna, 435.

BETTIN, MONA E. — Report of a case of torula infection, 98.

BONN, H. K.—The preliminary thyroid operations, 365.

BOTTS, ERNEST L.—Unsupervised diets of infants up to one year of age, 485.

BOWERS, SIDNEY—The relation of growth to rickets, 104.

C

CANCERS, external: Their treatment at the Los Angeles Cancer Clinic (A. Davidson), 324.

CANCER of the esophagus in general practice (Gordon F. Helsley), 102.

CANCER of the rectum (M. S. Woolf), 612.

CARBUNCLE of the kidney (Charles P. Mathe), 601.

CARLTON, ALBERT C. — Removal of tonsils by electro-coagulation, 554.

CHAPPEL, HALBERT W.—Effect of structural changes in the lumbar and pelvic regions on the sciatic nerve, 91.

CHENEY, MARSHALL C.—Incidence of intestinal parasites, 57.

CHENEY, W. F.—Gastric and duodenal ulcer, diagnosis and treatment of, 595.

CHILDREN, dependent, what doctors should know about the state's assistance to (Geneva S. Orcutt), 488.

CHIPMAN, ERNEST DWIGHT — The clinical diagnosis of syphilis, 307.

CHRISTIANSEN, E. B.—De-etherization by carbon dioxid inhalation, 617.

CLARKE, FRED B. — Poliomyelitis, with especial reference to treatment with Rosenow's serum, 437.

CLARY, LLOYD A. — Remarks on bandaging, 491.

CLEARY, E. W. — Fractures of the spinal column, 191.

CLINICAL laboratories, relation to the practice of medicine (Paul G. Woolley), 537.

COCCIDIOIDAL granuloma in Southern California (Roy W. Hammack and J. Mark Lacey), 224.

COCCIDIOIDES of the central nervous system (Myrl Morris), 483.

COCHRAN, GUY—Congenital hypertrophic pyloric stenosis in infants, 137.

COE, H. E. and ALDERSON, H. E.—Erythema induratum, 1.

COHN, ROBERT D.—A few notes on Halle's Clinic, with especial reference to his endonasal surgery, 6.

COLE, WILLIAM—The neurological features of Addison's anemia, 501.

COLLINS, ASA W.—A systematic use of opium following certain laparotomies, 264.

CULVER, G. D. and D. W. Montgomery.—Epithelioma of the lip treated with radium, 628.

CYSTIC duct, obstruction of and its surgical consequences (Andrew Stewart Lobingier), 540.

CYSTOSCOPY in children (Burnett W. Wright), 313.

CYSTS of the prostate and urethra (Miley B. Wesson), 562.

D

DAVIDSON, A. — External cancers: their treatment at the Los Angeles cancer clinic, 324.

DAVIDSON, ANSTRUTHER — The role of alkalies in treatment, 150.

DE-ETHERIZATION by carbon dioxid inhalation (Elizabeth B. Christiansen), 617.

DELPRAT, G. D. and WOOLSEY, J. H.—Acute pancreatitis, 423.

DE RIVER, J. PAUL—The correction of external nasal deformities, 214.

DERMATOSES, toxic (O. V. Schroeter), 220.

DIABETES, present status of the treatment of with insulin (W. D. Sansum, N. R. Blatherwick, L. C. Maxwell, Elsie Hill, Marion G. Bell, John Berger, Melville Sahyun), 321.

DIETS of infants, unsupervised up to one year of age (Ernest L. Botts), 485.

DIPLOMAS, fraudulent and state licenses (C. B. Pinkham), 63.

DIVERTICULA, esophageal (John Hunt Shephard), 208.

DOCTOR, as he was, is and should be (Thomas Clay Edwards), 249.

DOYLE, JOHN H—Clinical manifestations and treatment of epidemic encephalitis, 558.

DRESEL, RUDOLPH L.—Traumatic synovitis of the knee, acute and chronic, 93.

DUNCAN, REX — Justification for sterilization by either surgical or radiological methods, 147.

DUNCAN, REX—Relation of surgery and radio-therapy in the treatment of malignant diseases, 256.

E

EDWARDS, THOMAS CLAY—The doctor, as he was, is and should be, 249.

ELLSWORTH, A. D.—A case of simulated pregnancy and delivery, 5.

ELY, LEONARD. W. — The second great type of cronic arthritis in its relation to industrial accident cases, 260.

EMPYEMA in children under 13 years, a statistical study of (A. J. Scott, Jr.), 619.

ENCEPHALITIS, acute epidemic (John W. Shuman), 311.

ENCEPHALITIS, epidemic, clinical manifestations and treatment of (John H. Doyle), 558.

ENDOCRINE obesity, frequency of endogenous and its treatment by glandular therapy (H. Lisser), 509.

ENURESIS, psychologic factor in (D. H. Gibbs), 427.

EPITHELIOMA of hand—a study in differential diagnosis between epithelioma and endothelioma (W. A. Perkins), 448.

EPITHELIOMA of the lip treated with radium (D. W. Montgomery and G. D. Culver), 628.

ERYTHEMA induratum (H. E. Alderson and H. C. Coe), 1.

ETHMOIDAL conditions, diagnosis and treatment of chronic (Harvard McNaught), 373.

EVANS, GEORGE H.—Tuberculosis in pregnancy, 61.

F

FABER, HAROLD F.—The importance of early diagnosis in oxycephaly and allied cranial deformities, with reference to the prevention of blindness and other sequelae, 542.

FAIRCHILD, FRED R.—Some practical suggestions in the treatment of fractures, 131.

FARMAN, FRANKLIN — Some types of chronic recurrent pyelitis and their treatment, 203.

FOCAL infection, peculiar manifestation of. Treatment and apparent cure (William A. Shaw), 64.

FRACTURES, some practical suggestions in the treatment of (Fred R. Fairchild), 131.

FRIESEN, J. FRANK—Meningitis of otitic origin, 16.

FROELICH SYNDROME, the adult equivalent of (George Knapp Abbott), 20.

FROST, KENDAL P.—Skin syphilis associated with inflammatory skin diseases, 223.

G

GALL-BLADDER and bile tract, the principle and technic of drainage in the surgery of (Andrew Stewart Lobingier), 45.

GASTRIC and duodenal ulcer, diagnosis and treatment of (William F. Cheney), 595.

GENERAL MEDICINE, section on—Chairman's address (A. S. Granger), 378.

GENERAL SURGERY, section on—Chairman's address—The bad risk and the surgeon (Rea Smith), 382.

GIBBS, D. H.—The psychologic factor in enuresis, 427.

GIBSON, THOMAS E.; Hinmann, Frank; and Kutzmann, Adolph A.—Tumors of the testicle, 48.

GODINO TWINS (R. H. Van Denburg), 514.

GOITER, in the Great Basin, Utah (George W. Middleton), 52.

GOITER SURVEY in Utah (James Wallace), 431.

GRANGER, A. S. — Chairman's address—Section on general medicine, 378.

GUMBINER, ALFRED—Some ocular manifestations of disease processes, 443.

GUNDRUM, F. F.—Vincent's disease and parasyphilis, with report of fatal case, 545.

H

HAEMATOMA, spontaneous perirenal (Leon Joseph Roth), 54.

HALLE'S CLINIC, a few notes on, with especial reference to his endonasal surgery (Robert D. Cohn), 6.

HAMMACK, ROY W. and Lacey, J. Mark—Coccidioidal granuloma in Southern California, 224.

HASTREITER, R. F. — History and progress of anesthesia in California, 329.

HAY-FEVER in the Sonoran belt of the Intermountain District (H. J. Templeton), 317.

HEAD injuries, possibility of remote effects in (Charles E. Mordoff), 59.

HEALTH, some observations on conditions in Nevada (C. P. Knight), 368.

a

HELSLEY, GORDON F.—Cancer of the esophagus in general practice, 102.

HERZIG, MAXIMILIAN L.—Undescended testicle complicating acute appendicitis, 371.

HEWLETT, A. W.—Some clinical aspects of auricular fibrillation, 480.

HINMAN, FRANK; Kutzmann, A. A.; and Gibson, Thomas E.—Tumors of the testicle, 48.

HOWSON, CARL R.—Climate in pulmonary tuberculosis, 496.

HURWITZ, S. H. — Post-influenzal bronchitis, treatment of, 620.

HYDROTHORAX, unique transposition of abdominal viscera from (A. W. Meyer), 205.

I

INDUSTRIAL SURGERY, as a specialty (Albert W. Moore), 375.

J

JACOBS, LOUIS CLIVE — Unusual problems of the surgical prostate, 326.

K

KERBY, JAMES P. — Deep x-ray therapy, 201.

KIDNEY and ureteral calculi (J. C. Negley), 227.

KIDNEY and ureteral stone surgery (Herman L. Kretschmer), 143.

KNIGHT, C. P.—Some observations on health conditions in Nevada, 368.

KRETSCHMER, HERMAN L.—Kidney and ureteral stone surgery, 143.

KUTZMANN, ADOLPH A.; Hinman, Frank; and Gibson, Thomas E.—Tumors of the testicle, 48.

L

LACEY, J. MARK and Hammack, Roy W. — Coccidioidal granuloma in Southern California, 224.

LANGLEY, ROBERT WILLIAM—Modern medicine and the public attitude, 451.

LANGSTROTH, LOVELL—Disturbed metabolism as a background for disease, 453.

LAPAROTOMIES, a plea for an improvement in the post-operative care of (Carl G. Wilson), 315.

LAPAROTOMIES, a systematic use of opium following (Asa W. Collins), 264.

LISSER, H.—The frequency of endogenous endocrine obesity and its treatment by glandular therapy, 509.

LOBINGIER, ANDREW STEWART—Obstruction of the cystic duct and its surgical consequences, 540.

LOBINGIER, ANDREW STEWART—The principle and technic of drainage in the surgery of the gall-bladder and the bile tract, 45.

M

MacGOWAN, GRANVILLE—Address of president-elect, 251.

McNAUGHT, HARVARD — Diagnosis and treatment of chronic ethmoidal conditions, 373.

MAGAN, PERCY T. — Glimpses of past medical social service work and its present status, 556.

MALIGNANT diseases, relation of surgery and radio-therapy in the treatment of (Rex Duncan), 256.

MARTINACHE, NARCISSE JOSEPH—A remarkable ophthalmologist (Douglass W. Montgomery), 271.

MATHE, C. P.—Carbuncle of the kidney, 601.

MEDICAL social service work, glimpses of past work and its present status (Percy T. Magan), 556.

MEDICINE, modern and the public attitude (Robert William Langley), 451.

MENINGITIS, of otitic origin (J. Frank Friesen), 16.

MENTAL disorders considered as maladjustment or broken adaptation to the environment (Glenn E. Myers), 153.

MERCUROCHROME-220, two years' experience with in ophthalmic therapeutics (M. F. Weymann), 493.

METABOLISM, disturbed, as a background for disease (Lovell Langstroth, 453.

MEYER, A. W.—Unique transposition of abdominal viscera from hydrothorax, 205.

MEYERS, I. LEON—Progression reflex, the, 609.

MIDDLETON, GEORGE W.—Goiter in the Great Basin, 52.

MILLER, FRANK PORTER—Carbon dioxide combining power of blood plasma in pulmonary tuberculosis, 273.

MONTGOMERY, DOUGLASS W.—Narcisse Joseph Martinache, a remarkable ophthalmologist, 271.

MONTGOMERY, D. W. and G. D. Culver. — Epithelioma of the lip treated with radium, 628.

MOORE, ALBERT W. — Industrial surgery as a specialty, 375.

MORDOFF, CHARLES E.—Possibility of remote effects in head injuries, 59.

MORRIS, MYRL—Coccidioides of the central nervous system, 483.

MYERS, GLENN E. — Mental disorders considered as maladjustment or broken adaptation to the environment, 153.

N

NASAL DEFORMITIES, the correction of external (J. Paul de River), 214.

NEGLEY, J. C.—Kidney and ureteral calculi, 227.

NIXON, CHARLES E.—Individuality and environment as etiological factors in the psychoneuroses, 17.

NON-TUBERCULAR chest lesions, survey of (Henry Snure), 616.

O

OBSTETRICS, care of the new-born by the obstetrician (A. J. Scott), 267.
OBSTETRICS, influence of medical social work in (Armstrong Taylor), 442.
OCHSNER, A. J.—Treatment of acute osteomyelitis, 3.
OCULAR manifestations of disease processes (Alfred Gumbiner), 443.
OPERATING ROOMS, optimum temperature of (Emmet Rixford), 599.
ORCUTT, GENEVA S.—What doctors should know about the state's assistance to dependent children, 488.
OSTEOMYELITIS, treatment of acute (A. J. Ochsner), 3.
OXYCEPHALY and allied cranial deformities, importance of early diagnosis in, with reference to the prevention of blindness and other sequelae (Harold F. Faber), 542.

P

PALMER, CAROLINE B.—The effects of posture on relaxation under anesthesia, 24.
PANCREATITIS, acute (J. H. Woolsey, and G. D. Delprat), 423.
PARASITES, intestinal incidence of (Marshall C. Cheney), 57.
PERKINS, W. A.—Epithelioma of hand—a study in differential diagnosis between epithelioma and endothelioma, 448.
PIERSALL, CLAUDE E.—Present-day x-ray and radium therapy, 9.
PILLOW HABITS, influence of on the development of the upper jaw (Harvey Stallard), 216.
PINKHAM, C. B.—Fraudulent diplomas and state licenses, 63.
POLIOMYELITIS, with especial reference to treatment with Rosenow's serum (Fred B. Clarke), 437.
POST-INFLUENZAL asthmatic bronchitis, treatment of (S. H. Hurwitz), 620.
PREGNANCY, a case of simulated and delivery (A. D. Ellsworth), 5.
PRESIDENT-ELECT, Address of (Granville MacGowan), 251.
PROGRESSION reflex, the (I. Leon Meyers), 609.
PROSTATE, unusual problems of the surgical (Louis Clive Jacobs), 326.
PROTOZOA, intestinal—a review from the Stanford Medical Clinic (Alfred C. Reed and Harry A. Wyckoff), 89.
PSYCHONEUROSES, individuality and environment as etiological factors in (Charles E. Nixon), 17.
PYELITIS, some types of chronic recurrent and their treatment (Franklin Farman), 203.
PYLORIC STENOSIS, congenital hypertrophic in infants (Guy Cochran), 137.

R

RAMSAY, ROBERT E.—Clinical aspects of rickets in Southern California, 211.
READ, J. MARION—Roentgen-ray therapy in thyrotoxicosis; its effect as measured by the basal metabolic rate, 10.
REED, ALFRED C. and Wyckoff, Harry A.—Intestinal protozoa—A review from the Stanford Medical Clinic, 89.
RICKETS, clinical aspects of in Southern California (Robert E. Ramsey), 211.
RICKETS, the relation of growth to (Sidney Bowers), 104.
RIXFORD, E.—Operating rooms, optimum temperature of, 599.
ROENTGEN THERAPY, the evolution of in higher voltages (Albert Soiland), 148.
ROTH, LEON JOSEPH—Spontaneous perirenal haematoma, 54.
ROTHSCHILD, MAX and WARREN, HARRY—Report of three hundred cases of pulmonary tuberculosis treated with partial antigens (Much-Deycke) during the last three years, 381.
RUEDIGER, E. H.—A plea in favor of a standardized Wassermann test, 548.

S

SANSUM, W. D. and Blatherwick, N. R.; Maxwell, L. C.; Hill, Elsie; Bell, Marion G.; Berger, John; Sahyun, Melville.—The present status of the treatment of diabetes with insulin, 321.
SCHNEIDER, EDWIN H.—Adenomata of the thyroid gland, 22.
SCHOLTZ, MOSES.—Skin syphilis as clinical entity, 505.
SCHROETER, C. V.—Toxic dermatoses, 220.
SCIATIC NERVE, effect of structural changes in the lumbar and pelvic regions on (Halbert W. Chappel), 91.
SCOTT, A. J.—The care of the new-born by the obstetrician, 267.
SCOTT, A. J., Jr.—Empyema in children under 13 years, a statistical study of, 619.
SHAW, WM. A.—Peculiar manifestation of focal infection. Treatment and apparent cure, 64.
SHEPHARD, JOHN HUNT—Esophageal diverticula, 208.
SHUMAN, JOHN W.—Acute epidemic encephalitis, 311.
SMITH, REA.—The bad risk and the surgeon—Chairman's address; section on general surgery, 382.
SNURE, HENRY.—Bone tumors, 276.
SNURE, H.—Non-tubercular chest lesions, survey of, 616.
SOILAND, ALBERT.—The evolution of roentgen therapy in higher voltages, 148.
SPINAL COLUMN, fractures of (E. W. Cleary), 191.
SPROAT, S. M.—Perforative appendicitis—appendicectomy versus drainage, 141.
STALLARD, HARVEY—Influence of pillow-habits on the development of the upper jaw, 216.
STERILIZATION, justification for by either surgical or radiological methods (Rex Duncan), 147.
SYNOSTOSIS of radius and ulna, congenital (C. B. Bennett), 435.
SYNOVITIS traumatic of the knee, acute and chronic (Rudolph L. Dresel), 93.
SYPHILIS, clinical diagnosis of (Ernest Dwight Chipman), 307.
SYPHILIS, skin, association with inflammatory skin diseases (Kendal P. Frost), 223.
SYPHILIS, skin, as clinical entity (Moses Scholtz), 505.

T

TAYLOR, ARMSTRONG.—Influence of medical social work in obstetrics, 442.
TEMPLETON, H. J.—Hay-fever in the Sonoran belt of the Intermountain District, 317.
TESTICLE TUMORS (Frank Hinman, Adolph A. Kutzmann, and Thomas E. Gibson), 48.
THYRO-TOXICOSIS, roentgen-ray therapy; its effect as measured by the basal metabolic rate (J. Marion Reed), 10.
THYROID operations, preliminary (H. K. Bonn), 365.
TONSILS, removal by electro-coagulation (Albert C. Carlton), 554.
TORULA INFECTION, report of a case of (Mona E. Bettin), 98.
TUBERCULOSIS in pregnancy (Geo. H. Evans), 61.
TUBERCULOSIS, pulmonary, carbon dioxide combining power of blood plasma in (Frank Porter Miller), 273.
TUBERCULOSIS, pulmonary, climate in (Carl R. Howson), 496.
TUBERCULOSIS, pulmonary, report of three hundred cases treated with partial antigens (Much-Deycke) during the last three years (Max Rothschild and Harry Warren), 381.
TUMORS, bone (Henry Snure), 276.

V

VAN DENBURG, R. H.—The Godino twins, 514.
VINCENT'S disease and parasyphilis, with report of fatal case (F. F. Gundrum), 545.

W

WALLACE, JAMES—Goiter survey in Utah, 431.
WARREN, HARRY and Rothschild, Max.—Report of three hundred cases of pulmonary tuberculosis treated with partial antigens (Much-Deycke) during the last three years, 381.
WASSERMANN TEST, a plea in favor of a standard method (E. H. Ruediger), 548.
WELTY, C. F.—Antrum of Highmore, surgery of, 624.
WESSELS, WALTER—Errors in diagnosis of abdominal conditions, 262.
WESSON, MILEY B.—Cysts of the prostate and urethra, 562.
WEYMAN, M. F.—Two years' experience with mercurochrome-220, in ophthalmic therapeutics, 493.
WILSON, CARL G.—A plea for an improvement in the post-operative care of laparotomies, 315.
WOOLF, M. S.—Cancer of the rectum, 612.
WOOLLEY, PAUL G.—The relation of the clinical laboratories to the practice of medicine, 537.

WOOLSEY, J. H. and Delprat, G. D. —Acute pancreatitis, 423.
WRIGHT, BURNETT W. — Cystoscopy in children, 313.
WYCKOFF, HARRY A. and Reed, Alfred C.—Intestinal protozoa—A review from the Stanford Medical Clinic, 89.

X

X-RAY, deep therapy (James P. Kerby), 201.
X-RAY and radium therapy, present-day (Claude E. Piersall), 9.
